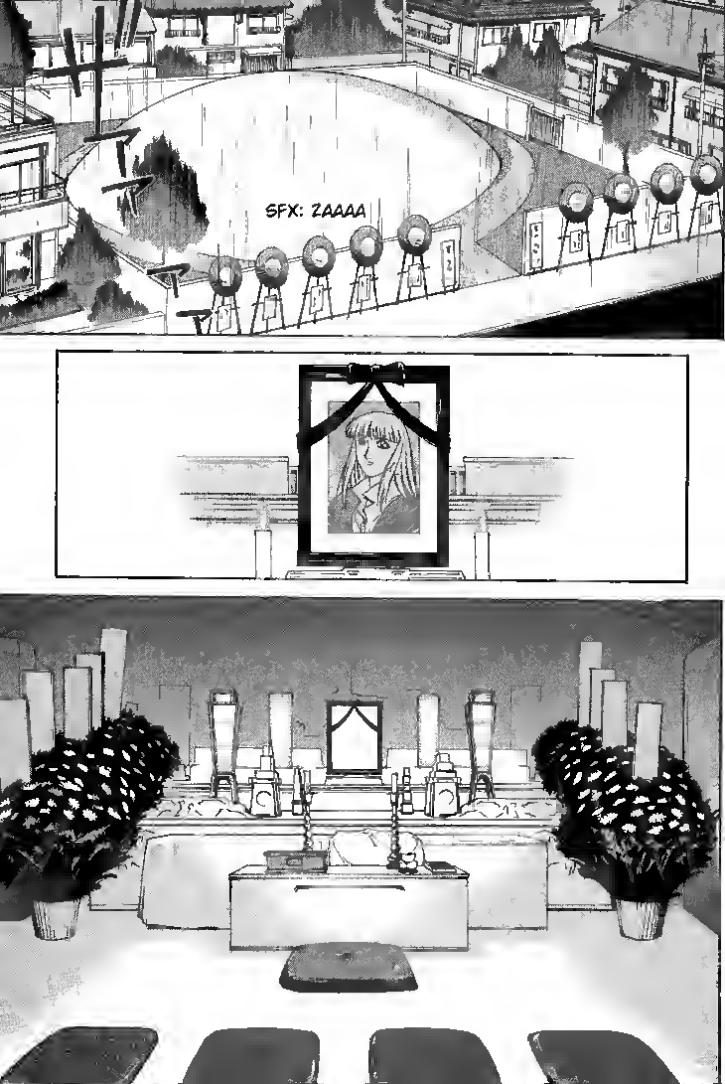
SFX: DA
SOMEONE ELSE WILL HAVE TO HELP ME DECIDE...
MY POWER ALONE WON'T BE ENOUGH

Toshi loved you too though, don't ask me why.
You're guilty of being a woman, I guess.
Assembler, can you hear me?
You really are a big idiot
Why did you have to go and do a stupid thing like that
Or were you even prepared to die to become human I wonder, Assembler
Did you... know? About becoming human. You shouldn't have, you should never have!
It's said that a Routine, having died must then be reborn.
The only way you could become human...

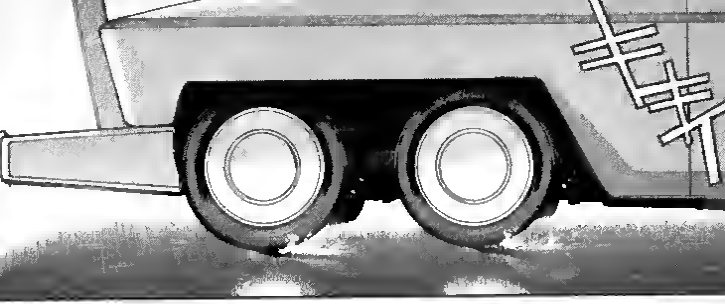
!!
And they say that rebirth requires the power of two other Routines
Inter-preter...
It's what Assembler would have wanted.
I know.
You won't be one of us...
But an ordinary human girl...
Goodbye, Assembler
Next time we meet.

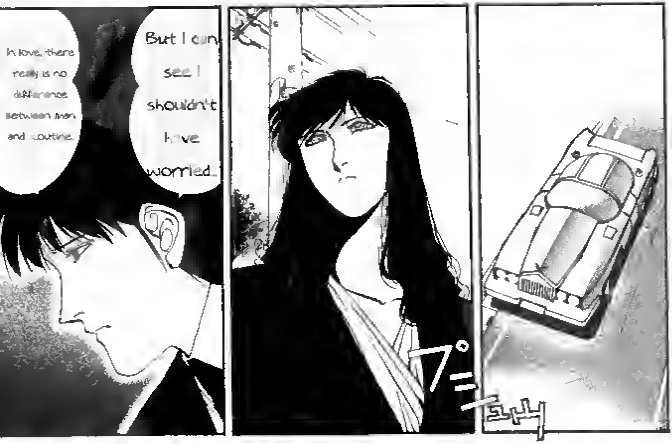


SFX: ZAAAA

We might not have succeeded...
No way...
Mm, aah... I understand
Brother... I'd like to be alone with Assembler, so...
Hmm.
What do you say, Compiler?

Assem bler...
I still can't believe you're gone...
Can you hear me?
Assem bler...
Before I knew it, I couldn't think of anything but you.
I really like you, love you, Assembler!
This thing happened because of me!
But...
That humans and Routine cannot love each other!!
But before I realize that I'd always thought...





In love, there really is no difference between men and routine.
But I can see I shouldn't have worried.
